Using Ride with GPS

• If you don’t already have one, create a free account for yourself at http://ridewithgps.com

• With a free account, you can do the following:
  – Find existing public routes
  – Print basic cue sheets
  – Export GPS files
  – Create new routes.

• You won’t be able to print the pretty cue sheets. For that you’ll need a paid account.
Finding a Route

• Login to your RWGPS account
• Click the “FIND” tab
• Add filtering criteria
  – Route Author
  – Starting City & Search Radius
  – Keywords
  – Minimum route length
  – Minimum elevation gain
• Click “SHOW ME THE RIDES”
The RWGPS Home Page
Find Page

Enter your criteria

Click to search
Entering Your Search

• Use our starting points (Berea or Olmsted Falls)
• Use anything that might appear in the route title as a keyword. Many of our routes start with “LEW”. Experiment.
• You can also use the route author as a keyword. LEWAdmin is the club account.
• You can sort the results a variety of ways. Just click the arrows in the sort box.
