

Lake Erie Wheelers RideWithGPS Member Instructions

August Tischler; Last Rev 10/17/21

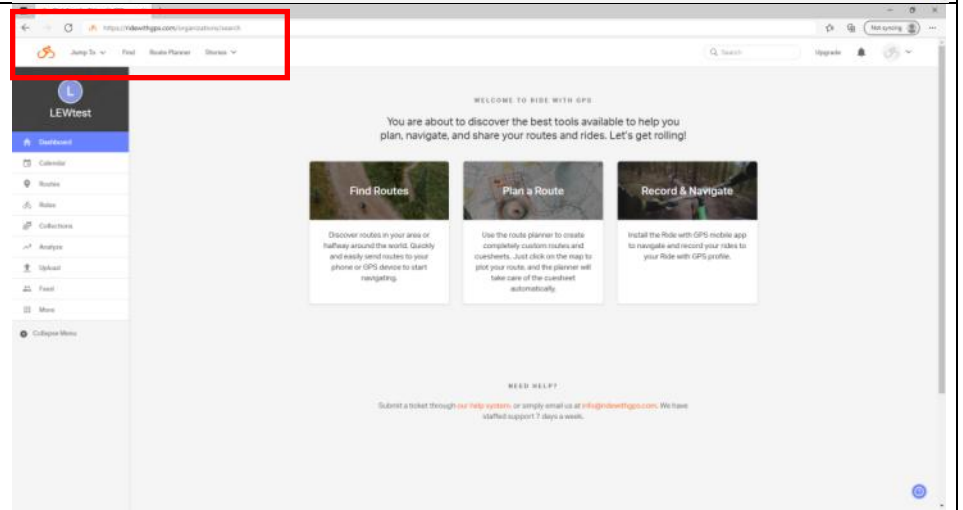

To find and join the Lake Erie Wheelers RideWithGPS club account:

Log into your RwGPS account in your web browser (computer).

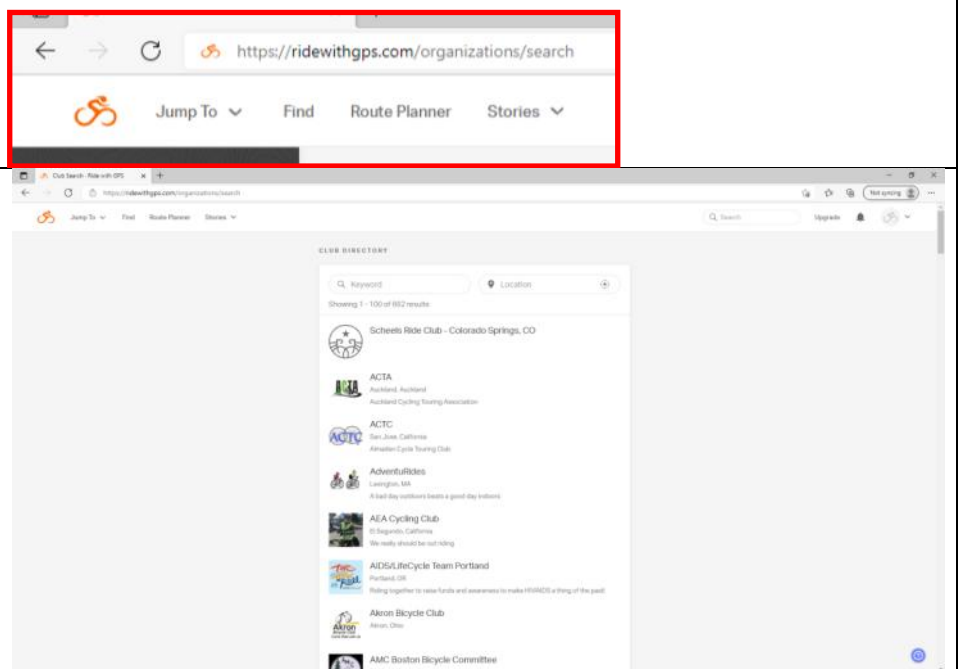

After logging into your account click on the the URL (website address) and change it by typing:

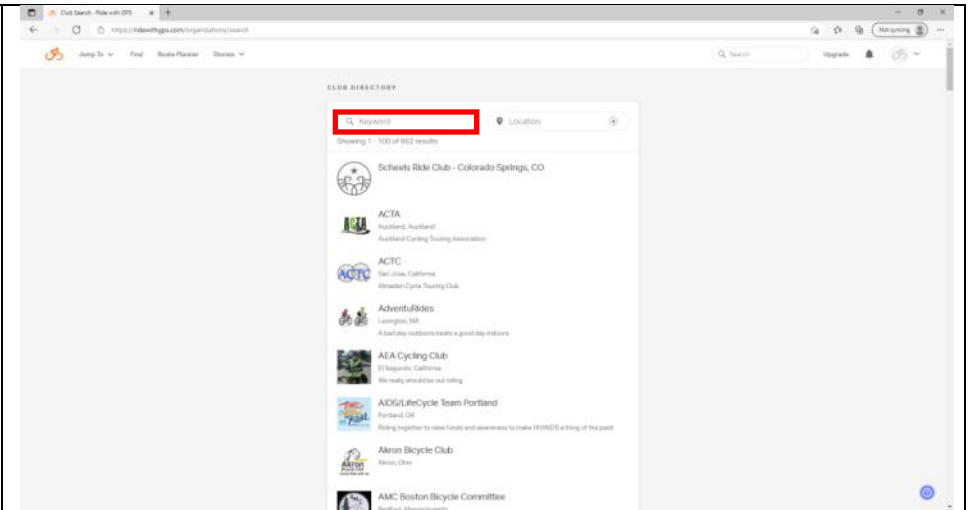

<https://ridewithgps.com/organizations/search>

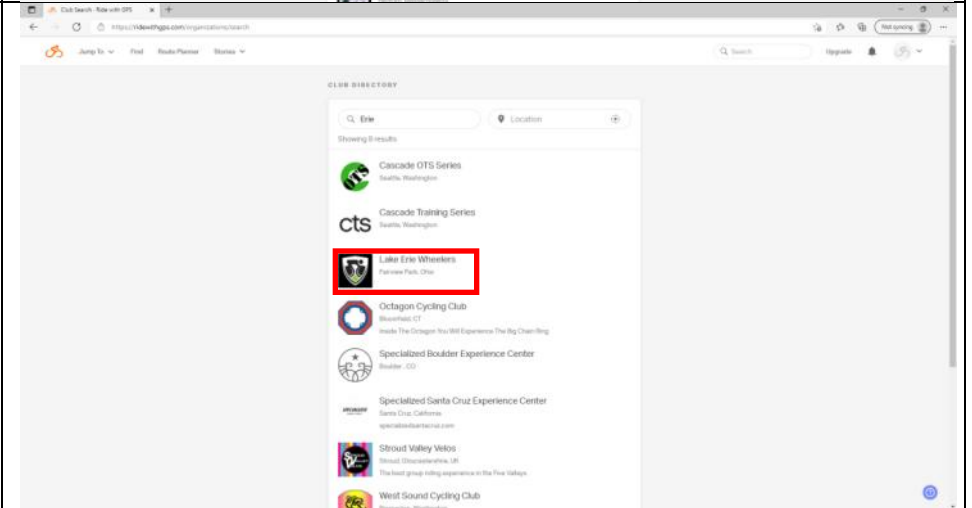

Press the Enter key on your keyboard

Type "Erie" in the Keyword field

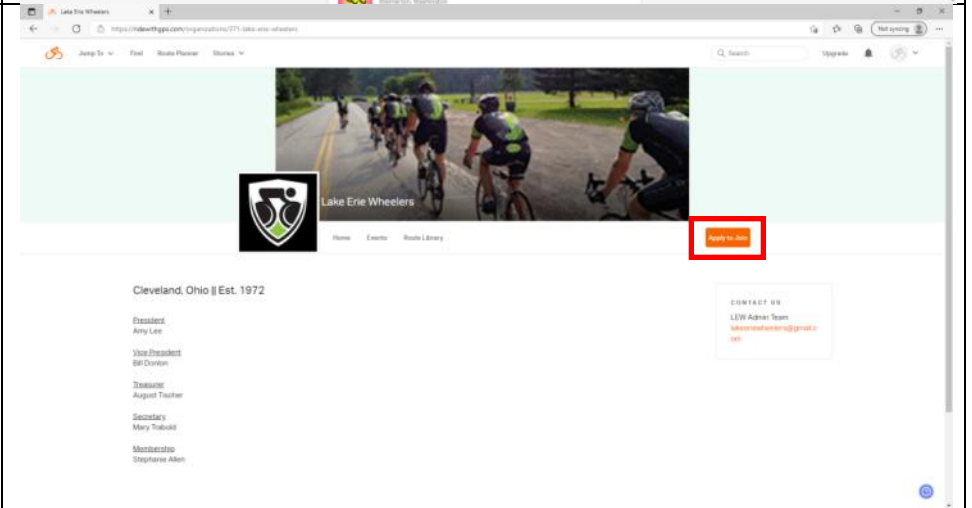

Click on the Lake Erie Wheelers club icon

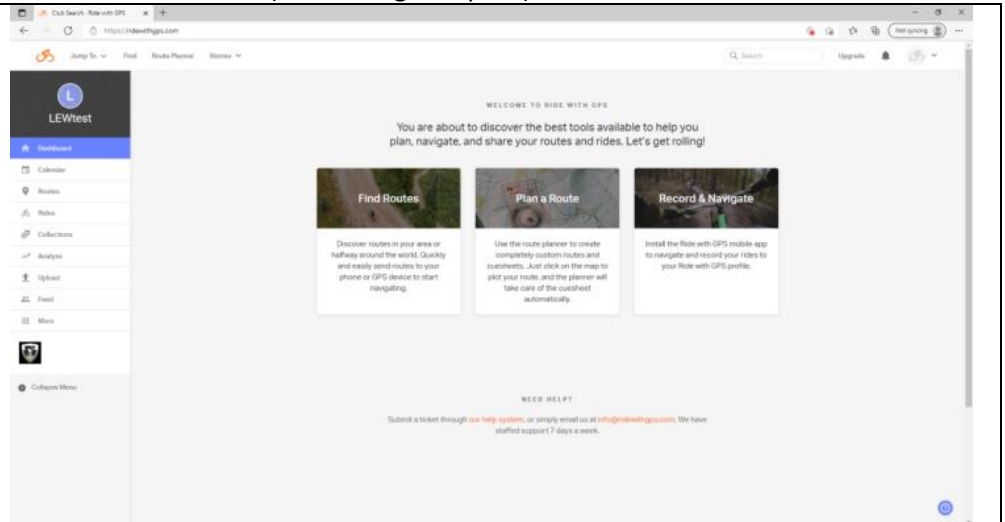

Click on "Apply to Join"

An email will be sent to the managing LEW officer to accept you in the group.

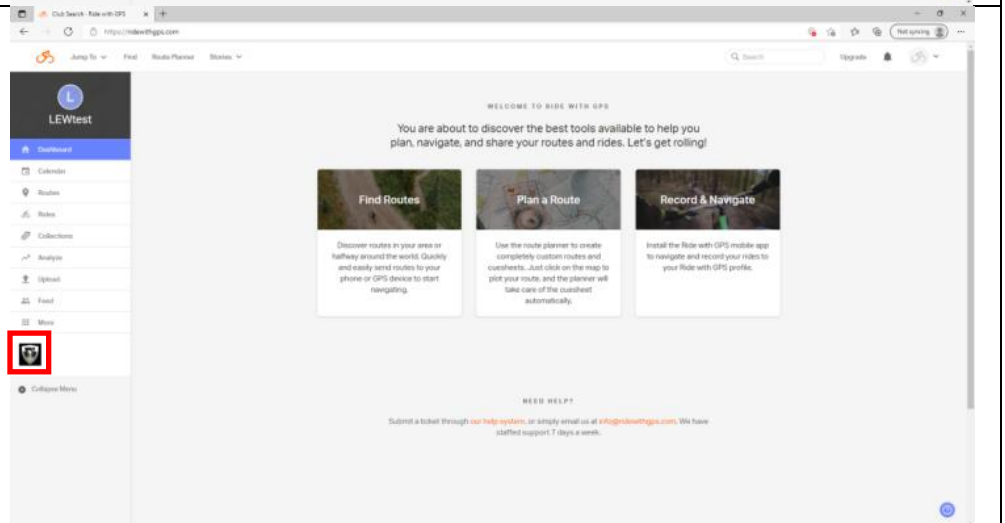

To access the Lake Erie Wheelers RideWithGPS club account (after being accepted):

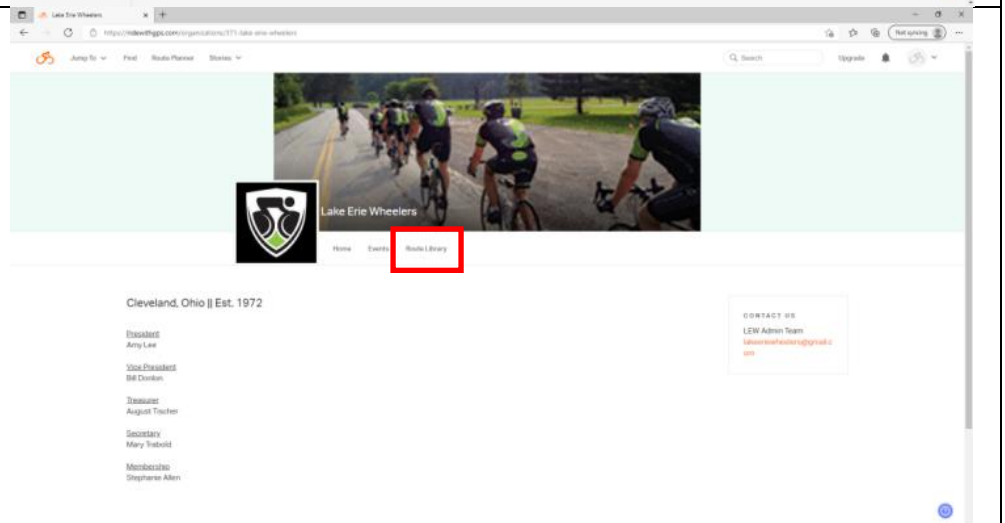

Log into your RwGPS account in your web browser (computer).

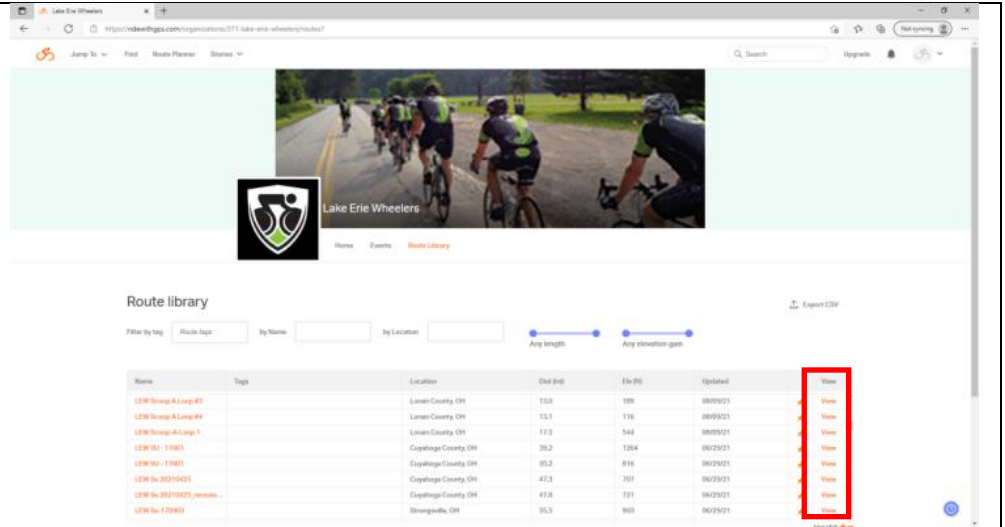

You will now see the Lake Erie Wheelers icon at the bottom of the column of links on the left. Click the LEW icon.

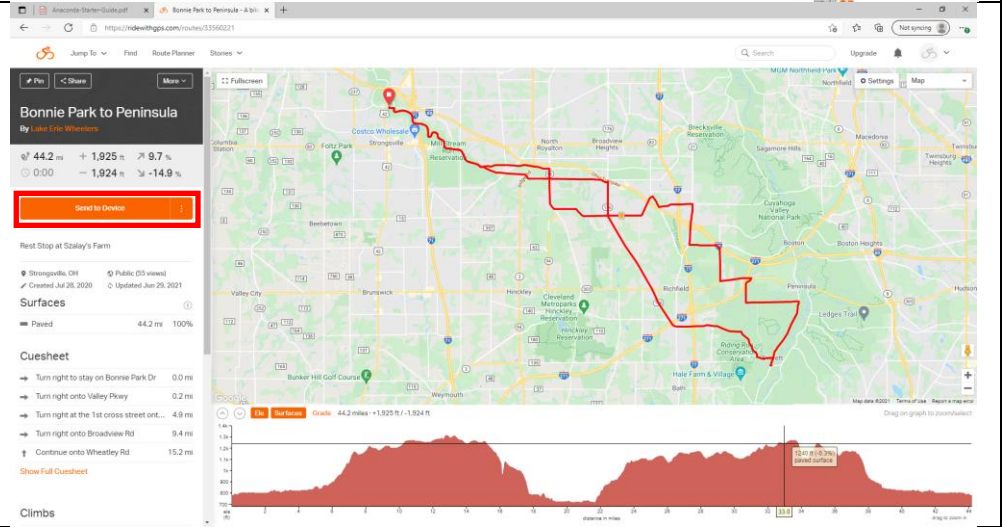

Click on "Route Library" to view the list of LEW routes

You can now view any of the club's saved rides

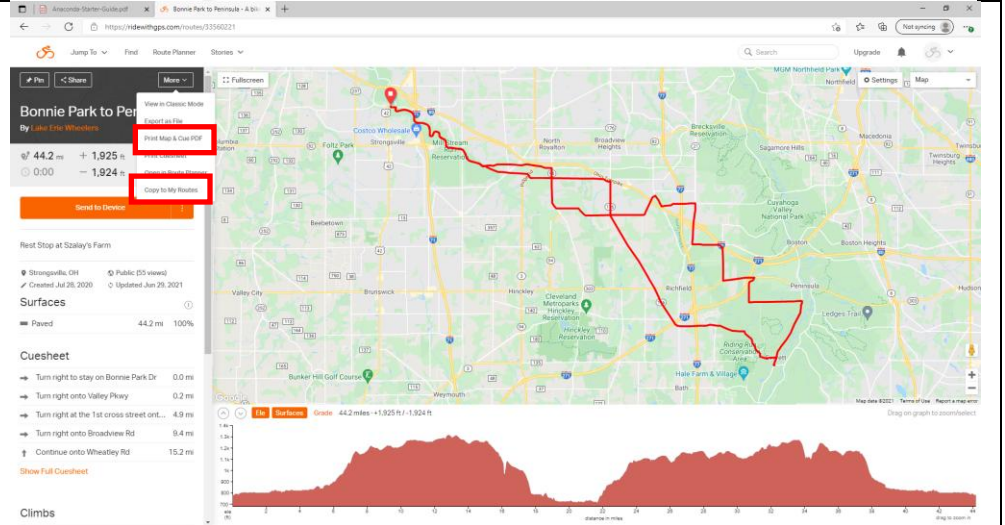

While viewing a club ride you may "Send to Device"

Under the "More" menu you may also "Print Map & Cue PDF" or "Copy to My Routes"

"Copy to My Routes" will allow you to edit the route in your personal Rwigps library.

“Print Cuesheet” will have no options and will print a single panel per page. To print the cue sheet in quarter panels use the “Print Map & Cue PDF.” Adjust the options as follows:

- Uncheck “Include Map”
- Set “Rows and Columns” to 2x2
- Customize “Cuesheet Order” section to personal preference

Click “Submit” to generate the .PDF file.

Open the .PDF file separately to physically print it.

The screenshot shows the RideWithGPS website interface for generating a PDF printout of a route. The browser address bar shows the URL: <https://ridewithgps.com/routes/35569221/print>. The page is titled "Print Cuesheet" and features several sections for configuration:

- General options:** Includes fields for Page Size (set to Letter), Units (set to imperial), PDF Title (set to Bonneville Park to Peninsula), and Folder. A red circle highlights the "Include Map" checkbox, which is currently checked. Below it, the "Include Cuesheet" checkbox is checked.
- Map Options:** Includes Orientation (set to Landscape) and several checkboxes: "include elevation profile" (checked), "Override elevation scale" (unchecked), "Include description" (unchecked), "Show coordinate grid on map" (unchecked), "Overlaid ordered cuesheet icons" (unchecked), and "Show distance markers" (checked). A map preview on the right shows a red route on a map of the Bonneville Basin area.
- Cuesheet Options:** Includes Orientation (set to Portrait), Rows and Columns (set to 2x2, highlighted with a red box), and Font size (set to 12). Checkboxes for "Abbreviate cues (Left → L)", "Show cuesheet column labels", and "Cuesheet Order" (highlighted with a red box) are present. Below these is a list of information columns to include in the cuesheet: "Cuesheet number", "Distance from start", "Distance from last", "Label (left/right,foot/etc)", "Notes", and "Distance to next".
- Experimental:** Includes a checkbox for "include maps in cuesheet" (unchecked) and a field for "1000 meters".
- Finalize:** Includes a "Generate PDF" section with instructions and a "Submit" button (highlighted with a red box).
